

Smart Building Management Platform

Smart Management for New and Existing Buildings

Smart Building Platform integrates community and building operations with cloud-based management and personalized services, accessible via web and app. It boosts efficiency for residents, property managers, and maintenance staff, enhancing both operations and living quality.

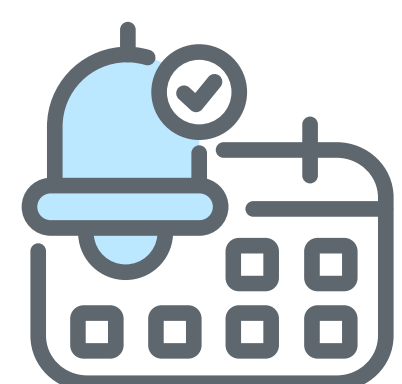

- Supports 2016 and 2024 smart building certification standards.
- Customizable interface with adjustable fonts and modes for enhanced comfort.
- Simplified management for booking, maintenance, voting, and payments.
