

FusionOne

One view to see and control
your entire building.

Smart Building Management System

FusionOne is an open, scalable building management platform that integrates HVAC, power, lighting, fire protection, access control, energy management, and IoT devices into a single platform. It provides real-time monitoring, visualization, alarms, analytics, and remote control to simplify building operations and improve management efficiency.

Cross-System Integration

Integrates building systems and IoT devices into a unified platform for centralized data management and analytics.

Monitoring & Alerts

Monitors energy consumption, HVAC, lighting, power distribution, and equipment status in real time.

Multi-Protocol Integration

Supports multiple communication protocols for seamless integration with building systems and IoT devices.

Custom Dashboard Builder

Create customized alert rules and notification settings to improve operational efficiency.

Floor-Plan Monitoring

Monitor equipment locations and operating status through interactive floor plans in real time.

Custom Dashboard Builder

Build dashboards with a No-Code drag-and-drop interface. No programming is required to create customized dashboards.

Equipment Control

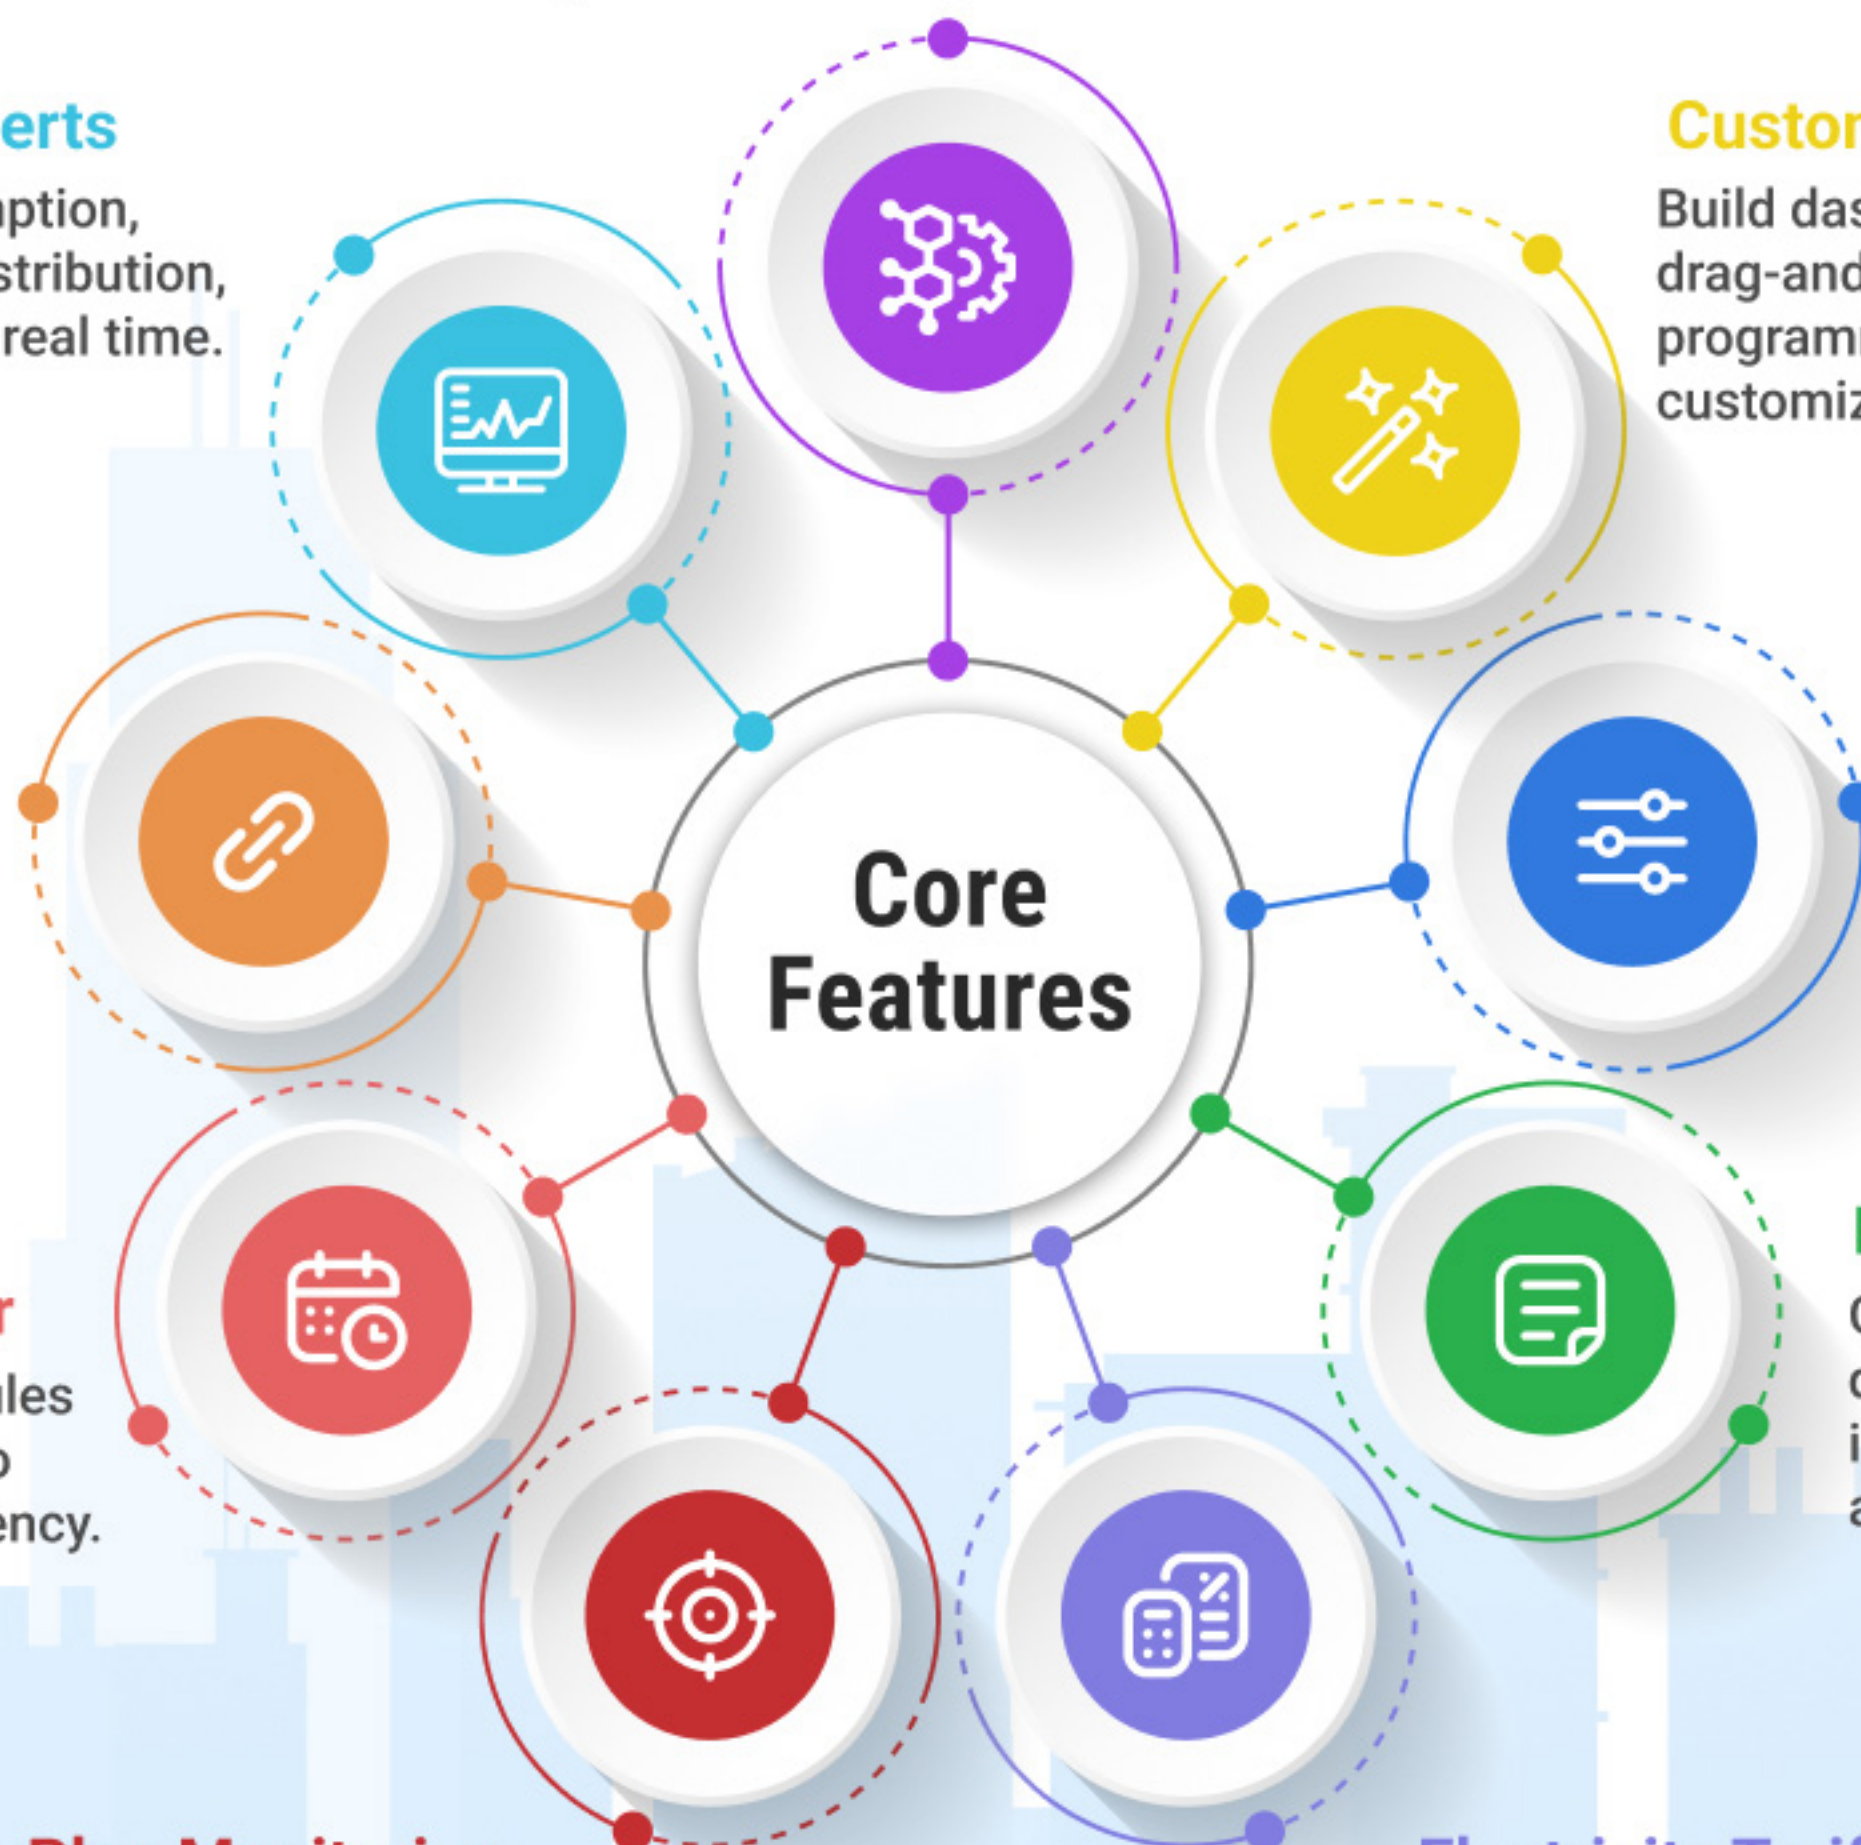

Remotely control equipment operation and settings with instant execution feedback.

Reports & Data Export

Generate reports and export data in multiple formats, including Excel, for further analysis.

Electricity Tariff & Contract Optimization

Analyze electricity tariffs and contract capacity to optimize energy costs and reduce demand charges.

One Platform for Integrated Building Management

FusionOne Smart Building Management Platform

Energy Management	Security Management	Building Services Management
Power Monitoring	Video Surveillance	Ventilation Monitoring
HVAC Monitoring	Access Control	Water Supply & Drainage Monitoring
Lighting Monitoring	Fire Alarm Monitoring	Elevator Monitoring
Energy Optimization	Smart Intercom & SOS System	Parking Management

Challenges → Smart Solutions

Use Cases

 Smart Buildings Building Automation	 Energy Management ISO 50001, 50002, 50006	 Industrial Parks Tech Parks
 Healthcare Hospitals · Long-Term Care	 Generation & Storage Microgrid	 Public Sector & Campus Government · Schools
