

Smart Building Management Platform

Smart Management for New and Existing Buildings

Smart Building Platform integrates community and building operations with cloud-based management and personalized services, accessible via web and app. It boosts efficiency for residents, property managers, and maintenance staff, enhancing both operations and living quality.

Features

- Supports 2016 and 2024 smart building certification standards.
- Integrates building systems and third-party smart services to improve operational efficiency and service quality.

Ennowell—Smarten Up Your Community Life

◆ Service Advantages

Common Features		Ennowell E Life	Other brands
Resident End	Repair Requests	Maintenance tracking with satisfaction feedback	×
	Visitor Reservations	Support visitor incident tracking	△ Available as an add-on
